## **IBT-300 Software Update Instruction**

- Switch off the IBT and connect it to the power supply.
- Connect IBT and PC using the enclosed cable K766.
- Unzip the attached file "IBT300\_V405.zip" in a directory of your selection.
- Copy the folder called "tffs" into the Root off the same partition used: example: If the file "IBT300\_V405.zip" was unzipped into the folder "D:\IBT\IBT300\_V405", the subdirectory called "D:\IBT\IBT300\_V405\tffs" must be copied direct onto "D:\".
- Double click the file **install.exe**.
